Activate:

Deactivate: [Tutorial Scenario only]

Procedure:

1. Powers buy diplomatic influence at a cost of 1 CP and advance their markers on the appropriate track.
2. Resolution of diplomatic status is triggered by the play of an event.
3. To resolve status, each power (even if it has no influence) rolls a die and adds its influence and modifier.
4. Highest sum is the winner. If winner working to deactivate, this power goes inactive.
5. If winner was trying to activate and doesn't currently have this power as ally, then deactivate from current ally (if any) and activate as winner's ally.
6. After resolution, all powers' markers on that track are placed on "Resolved this turn".
7. Resolution can only happen once per turn; markers reset to default position during winter if resolved during turn.
